

IEEE MTT-S International Conference on
Numerical Electromagnetic and Multiphysics
Modeling and Optimization for RF, Microwave,
and Terahertz Applications

CONFIRMED PLENARY SPEAKERS

Zoltan Cendes (retired, Ansoft)

Title: *Rebooting Numerical Electromagnetics - Technology transitions transform our turf*

Jim Rautio (Sonnet)

Title: *The Acceptance of Maxwell's Equations*

C.J. Reddy (Altair)

Title: *Pushing the Boundaries of Computational Electromagnetics – Application to Antenna Designs and Placement of Antennas*

Peter Thoma (CST)

Title: *Multiscale EM Problems in Industrial Applications*

Fritz Arndt (WASP-NET)

Title: *Hybrid Methods: Efficient EM CAD and Optimization of Microwave Components and Antennas*
